March 2020!

Strike a Chord is our theme this month, so we'll be enjoying a variety of music...and other things that "strike" our fancy! We'll start the month off with entertainment by Guitarist Bruce Stone on Monday, March 2. We're headed to the ballpark on Friday, March 6 to see some "strikes" thrown between the Minnesota Twins and the Tampa Bay Rays. Keyboardist Vicki Lei will be performing on St. Patty's Day, and we'll show off our talent (or lack of) on Karoke Night! We'll "Strike up the Band" with our very own kazoo group! Comedian Jack Barrow will be here to "strike" our funny bones, and we'll "strike" up conversations as we discuss women in history every Friday during Women's History Month.

Good People Getting Scammed - #10

#10 Government Grant Scam

In the most common Grant scam, the consumer will receive an unsolicited phone call from a con artist claiming that they are from the "Federal Grants Administration" or the "Federal Grants Department" neither of which exists. In other versions of this scam scammers place advertisements in the classified section of the local newspapers offering "free grants," and will request that victims wire money for processing fees or taxes before the money can be sent to them.

Tips from <http://www.fraud.org/scams/telemarketing/government-grants>

The National Consumer League has published the following tips for consumers to avoid falling victim to a federal grant scam:

Ø Do not give out your bank account information to anyone you do not know. Scammers pressure people to divulge their bank account information so that they can steal the money in the account. Do not share bank account information unless you are familiar with the company and know why the information is necessary.

Ø Government grants are made for specific purposes, not just because someone is a good taxpayer. They also require an application process; they are not simply given over the phone. Most government grants are awarded to states, cities, schools, and nonprofit organization to help provide services or fund research projects. Grants to individuals are typically for things like college expenses or disaster relief.

Ø Government grants never require fees of any kind. You might have to provide financial information to prove that you qualify for a government grant, but you never have to pay to get one. This month our topic is Identity Theft. Simply put, identity theft is the fraudulent acquisition and use of a person's private identifying information, usually for financial gain.
