Activities Director Taunia Southworth

golden.ad@bluehaborssl.com

Community Liaison - Lorna Helsendegger

golden.fd@bluehaborssl.com

This month we are recognizing our employee Brittani Blackburn as our Blue Harbor HERO of the month. Brittani has worked here at Golden Living as a med technician for the past 8 years. She has always been a dedicated employee to Golden Living community. In the past she has been offered similar position at other assisted living community but declined the offer because of her loyalty and commitment to Golden Living community and its residents.

Her co-workers describe her as unfailingly cheerful, upbeat, and positive even when the community faces challengers, such as a 2-week quarantine for our residents. She is organized, efficient and without fail works hard on getting things done the right way. “She is levelheaded and defiantly has a big heart,” her teammates say about her.

She has shown deep respect and compassion for our residents by always putting them first.

Her supervisors especially appreciated the leadership role that she assumed when the community faced difficulties during our 2 -week quarantine while transitioning to a Care Department’s new record keeping system Eldermark.

Brittani has always done all she has under the radar for the last six years and with humility and grace. She often comes in on her days off when asked and without complaint. She demonstrates exceptional critical thinking skills and the building always runs smoothly when she is here.

We are truly fortunate to have Brittani as a part of our team here at Golden Living and wish we had more of the dedicated and hard-working employees like Brittani.

Congratulations, Brittani.
